

Satellite radio is the best thing that has happened to the listening public , especially for those [http://gullfoss2.fcc.gov/cgi-bin/websql/prod/ecfs/comsrch\\_v2.hts?ws\\_mode=retrieve\\_list&id\\_proceeding=04-160](http://gullfoss2.fcc.gov/cgi-bin/websql/prod/ecfs/comsrch_v2.hts?ws_mode=retrieve_list&id_proceeding=04-160) Click Here who have to travel through long miles of stations far from the cities which can offer a variety of listening formats. Not only is loved for the good music that it offers those of us who dislike the loud, discordant, and corrupt music but also those who shudder at the thought of listening to endless commercials interrupting their listening pleasurel.

Please do not bend to the wishes of the NAB. Satellite radio is the best thing to come along in our lifetimes since sliced bed.

Don't mess with it. Please.
